

GRANT

2007

Grant Products has an automotive and racing heritage that began in 1922 with the founding of the Grant Company by Gerry Grant. Over the years, Grant was a sponsor of many types of race cars including a record setting Indy 500 car and was one of the original sponsors of the prestigious 200 MPH Club. Many of today's race cars and boats, in all venues of motorsports, race with a Grant steering wheel.

Grant Products manufactures Custom Steering Wheels that add personal style to any car or truck. Grant has always offered innovative products, fine quality, distinctive style, solid value and a wide selection of designs to express your individual personality.

Our selection of high performance Custom Steering Wheels include a wide variety of finishes and styles. Grant Products are manufactured to exacting standards from select solid hardwoods and genuine leather, to soft foam grips, polished aluminum, matte black, silver or chrome...the choice is yours.

BUYING A GRANT STEERING WHEEL

For your non-airbag vehicle:

- Select a steering wheel for your vehicle
- You will need an Installation Kit to fit your car
- Installation Kits are listed on page 38

For your airbag equipped vehicle:

- See Custom Styling Rings on page 43
- Replacement airbag wheels are on page 48

GRANT CATALOGS-Grant also has a Marine Catalog, Racing Catalog, Golf Car Catalog and Heavy Duty Truck Catalog.

CLASSIC NOSTALGIA WHEELS

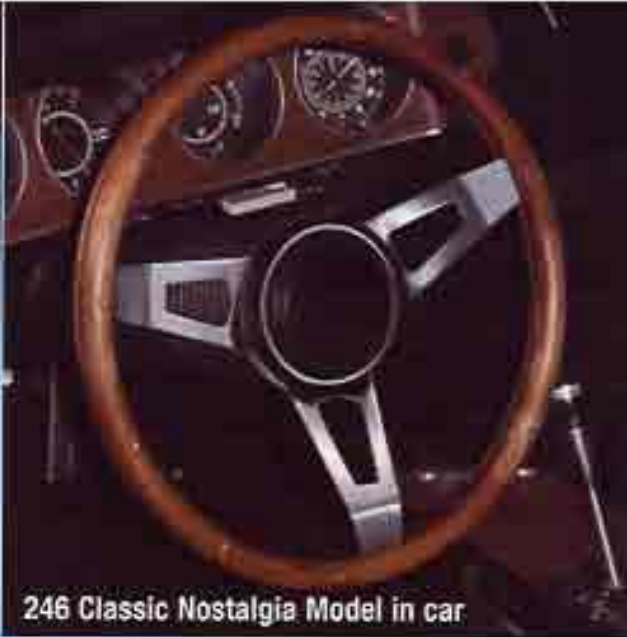

CLASSIC SERIES

These new wheels feature spokes that are patterned after the classic Mopar Tuff Wheel design from the 60's muscle car era. The steering wheels are available with hardwood walnut finish grips or thick cushion foam grips. The spokes are CRS steel with a matte nickel plate finish. The retro style horn button completes the look of this muscle car classic.

Dual Bolt Pattern

The wheels have the Grant standard three-hole bolt pattern so they can be installed on a wide variety of vehicles using a Grant Installation Kit.

The wheels also have the original Mopar Tuff Wheel bolt pattern and can be installed as a replacement wheel using the original hardware on the original column.

EVOLUTION GT MODEL

The Evolution GT wheel has a highly stylized ergonomic grip with two polished aluminum spokes and chrome accents. The molded chrome finish accent includes a horn button trim ring, a split spoke design and a chrome design on the wheel grip. The molded cushion grip combines a textured three dimensional finish, a leather grained design and a perforated leather design hand grip. This sporty wheel is 12 1/2" diameter with 3 1/2" dish with styling sleeve.

1440 Evolution GT Model

GM LICENSED PRODUCTS

These GM Licensed horn buttons feature a Chevrolet silver bowtie emblem on a black background with red, white and blue accents. This very popular emblem design was used during the muscle car era. The horn buttons will add a touch of retro styling to any Chevrolet project vehicle.

General Motors.

The
HERITAGE
COLLECTION

These unique steering wheel designs are inspired by classic wheel styles of the past to create a modern interpretation of a proud automotive heritage.

The Heritage Collection features larger diameter machined aluminum steering wheels. The spokes are machined 6061T6 Alcoa aluminum in a range of designs, polished to a mirror finish. The rims are genuine leather, hand rubbed mahogany wood or smooth urethane with a flame pattern. The wheels have finger grips on the back of the rim for additional comfort and style. The modular construction creates a wheel rim that is covered completely with leather, mahogany or smooth urethane, not with a partial aluminum rim as used in many billet wheels.

The center of each wheel has a polished aluminum center cap which compliments the wheel design.

BANJO STYLE WHEELS

Banjo

Banjo Style is an updated version of the classic "Banjo" steering wheel. Banjo Style features stainless steel construction with a highly polished center hub. The spokes are five polished stainless wires anchored to the wheel rim with a sculptured stainless steel spoke retainer (A).

The rims are available in rich, soft, hand-stitched leather or hand-rubbed mahogany wood with a deep, rich luster.

Banjo Style wheels are designed to be the finishing touch for any street rod vintage car or truck. Banjo Style wheels can also add a touch of timeless classic elegance to any model car or sport truck.

NO WHEEL, NO STEAL

Security

Grant introduces the world's first security system based on removing a car's steering wheel. That's right...removing a car's steering wheel.

After years of research and development, this fully patented system has proven to be virtually foolproof and safe. It's easy to install. It's easy to use. As easy as 1-2-3. And the wheel goes on the same way it comes off.

With a Grant Vehicle Security System (designed to be used with Grant Steering Wheels and Kits), you can remove or replace your steering wheel in less than five seconds. A patented lock-out cap snaps onto the steering column to further assure the security of your vehicle. So you can simply take your wheel with you wherever you go. Unlike conventional alarms, this revolutionary aerospace designed system cannot be affected by motion. Another big advantage is the fact that it doesn't rely on your battery. You can store vehicles indefinitely. It cannot be bypassed, as many of the ignition cut-off devices can. The Grant Security System is ideal for most makes of cars, trucks, vans and boats. The ultimate answer to vehicle theft: No Wheel, No Steal.

Grant's Vehicle Security System can only be used with a Grant Custom Steering Wheel and Installation Kit. Euro, Billet and Banjo Style Kits cannot be used.

3 EASY STEPS TO YOUR VEHICLE'S SECURITY

SECURE YOUR PARKED VEHICLE... The **VEHICLE SECURITY SYSTEM** allows you to remove the steering wheel when you park your vehicle. Remove the wheel and secure the vehicle with a highly visible Lock-Out cap. The steering wheel can then be locked out of sight in the trunk or taken into the house, office or gym.

1 Use the flagged security key to unlock the steering wheel.

2 Trigger release knob, turn wheel to left, and remove.

3 Snap on the security Lock-Out Cap and remove key.

2001
Vehicle Security System

2010
Nylon carry-along storage bag. A convenient way to carry and protect your wheel when removed from car (optional extra).

1966 Chevrolet El Camino
Tony Stark is constantly winning show awards and appearing in magazines and videos with his distinctive El Camino. He keeps it safe by using a Grant 2001 Vehicle Security System.

GEAR SHIFT KNOBS

Accessories

EVOLUTION GEAR SHIFT KNOBS

The Evolution Gear Shift Knobs feature leading edge Italian design to make any vehicle look like a high tech race car. The Evolution Gear Shift Knobs combine great design and accent colors that look great with a Grant Steering Wheel or Airbag Styling Ring.

1328 Evolution Knob in car

CORSA GEAR SHIFT KNOBS

The Corsa Gear Shift Knobs feature European racing style. The Corsa Knobs are available in a wide variety of styles including Carbon Fiber design, Burlwood, Mahogany and hand-stitched leather. The knobs are designed to fit most vehicles with a floor mounted manual transmission.

INSTALLATION KITS

Installation Kits

Grant manufactures Installation Kits to install Grant Custom Steering Wheels on a wide variety of vehicles. Installation Kits are available for most passenger cars, light duty trucks, sport utility vehicles and sport boats. An Installation Kit is necessary to install a Grant Custom Steering Wheel.

3158-3599 & 4158-4599 STEERING WHEEL INSTALLATION KITS

This is the standard Grant Steering Wheel Installation Kit. These kits may be used to install all Classic Series, Challenger Series or Signature Series Steering Wheels. Each kit contains complete step-by-step instructions, a die cast hub, grade 5 hardware and matte black trim pieces.

2001 VEHICLE SECURITY SYSTEM can only be installed using one of the above kits. Euro, Telescopic, Billet and Banjo Kits cannot be used.

TO INSTALL A GRANT WHEEL ON A BOAT OR GOLF CART SEE PAGE 46.

5162-5595 OPTIONAL BILLET STYLE INSTALLATION KIT

Grant Billet Style Installation Kits are an optional styling upgrade for our most demanding customers. The Billet Style Kits have Grant's five-hole mounting pattern and can only be used to install Grant Signature Series Steering Wheels. The kits feature machined aluminum styling sleeves in a highly polished mirror finish and are available in either natural color or anodized with a deep, rich, black luster finish. Chart below lists general coverage. See application guide for exact fit.

6400-6401 GENERAL MOTORS TELESCOPIC INSTALLATION KITS

These kits are designed for General Motors cars with telescopic steering columns only. They have Grant's five-hole mounting pattern and can **only** be used to install Grant Signature Series steering wheels.

6400 1984-89 models 2" travel (Can be used on older models but will limit travel to 2")

6401 1969-83 models 3" travel. Matte black finish.

6500-6599 EURO STEERING WHEEL INSTALLATION KITS

Grant's Euro Kits are designed to fit some of the most popular European cars. The Kits are finished in matte black to compliment any interior. Die cast hubs, mounting hardware and step-by-step instructions are included. The kits have Grant's five-hole mounting pattern and can **only** be used to install Grant Signature Series

Models 6504 thru 6599

STEERING WHEEL INSTALLATION KIT APPLICATION CHART

IMPORTANT INFORMATION PLEASE READ

1. Grant Installation kits are necessary to install Grant Custom Steering Wheels. Genuine Grant Installation Kits should be used **ONLY** on vehicles specified in this application chart.

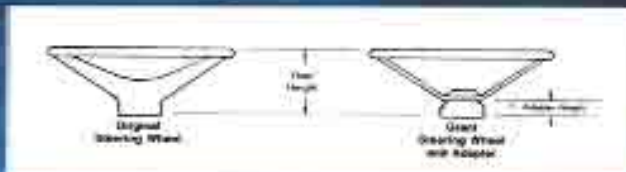

2. Installation Kits are not designed to be used on any airbag equipped vehicle.

3. These kits are not designed for use on vehicles with radio controls or cruise controls mounted on the steering wheel except for certain Ford vehicles with factory cruise control switches in the steering wheel. See page 44.

4. Installation kits will not fit vehicles with telescopic column. (Except kit No. 6400 & 6401 - see application guide).

5. To ensure adequate finger clearance between the steering wheel rim and turn signal or other column levers, select a Grant Custom Steering Wheel that will approximate the "dish" of the original wheel. Be sure to add 1" adapter height to the printed Grant Wheel "dish" when comparing to the original wheel. See diagram.

- Listed by car brand
- Boats and golf carts on page 46
- Custom steering columns on page 44

PLEASE READ IMPORTANT INFORMATION REGARDING ALL APPLICATIONS

FORD CRUISE CONTROL KITS

These kits are designed to fit Ford cars and trucks with the factory cruise control switches located in the steering wheel. These kits are engineered to fit specific Ford vehicles as shown below.

The kits allow you to install Grant Signature Series Wheels and retain the cruise control feature. Kits are available for both 3- and 4-spoke wheels. The kits are shipped fully assembled for easy installation. The kits feature a high gloss black finish. Each kit is 100% functionally tested by Grant prior to shipment.

3-Spoke & 4-Spoke Kit Pictured
See Application Guide

PLEASE READ IMPORTANT INFORMATION REGARDING ALL APPLICATIONS

• Includes 2001 (2002) models. See Page 22 • Includes 1990-94 (1991-94) models. See Page 22

CUSTOM STYLING RING

FOR AIRBAG STEERING WHEELS

The Grant Custom Styling Ring makes it easy to add style and elegance to airbag steering wheels. The Styling Rings are beautifully crafted and formed to exactly match the contours of the factory airbag steering wheel rim and spokes.

The Styling Ring installs easily over the factory airbag steering wheel and instantly transforms the ordinary appearance of the wheel into an elegant, high style customized steering wheel. The Styling Rings are designed to accent the airbag steering wheel while retaining all of the airbag safety features. The Styling Rings are held securely in place with 3M™ tape.

The Styling Rings are molded from high strength composite material featuring Grant's photolithographic process, a photo printing process that offers an extremely realistic detailed appearance.

Each Styling Ring is custom molded to fit a specific airbag steering wheel. (See the application chart, page 29.)

The Custom Styling Rings are available in several finishes. The Burlwood and Rosewood finish offer the traditional beauty of a rich, full-grained wood with a beautiful high gloss finish. The Carbon Fiber models feature the high tech look of woven carbon fiber, the space age material used in aerospace and Formula 1 racing. Grant's silver finish and bright new accent colors will add excitement to any car interior.

OEM REPLACEMENT STEERING WHEELS

Grant OEM Replacement Steering Wheels add style and elegance to ordinary air bag equipped vehicles. Grant offers steering wheels to fit General Motors trucks and SUV's (see application chart). The OEM wheels are available with beautiful hand crafted mahogany wood rims, hand stitched leather grips and carbon fiber design rims.

General Motors wheel replacement parts with Grant's customized rim designs. The Grant OEM Replacement Steering Wheels do not include an air bag. The steering wheels are installed by removing the original steering wheel and installing the new Grant Steering Wheel using the original factory air bag. The Grant Steering Wheels are easy to install and can be done by any authorized GM dealer.

Grant OEM Steering Wheel as Shipped

FORD SVO RESTYLING STEERING WHEELS

The Ford SVO Restyling Steering Wheels are designed to fit Ford trucks and SUV's (see application chart). The wheels feature beautiful wood combined with three beautiful leather hand grips. These wheels meet all of the Ford Motor Company and FMVSS standards. The steering wheels are installed by removing the original steering wheel and installing the new Ford SVO Restyling Steering Wheel using the original factory air bag. The wheels are easy to install and can be done by any authorized Ford dealer.

SPORT SEAT SHIELD

Sport Seat Shield

Sport Seat Shield is easy-to-use protection for your car seat. Sport Seat Shield slips on in seconds to offer waterproof protection from sweat, spills, snow, rain, sun and sand. Heavy-duty nylon fabric with a waterproof urethane backing shields your car seat from damage. Sport Seat Shield is ideal for active people. Use it after sports, after the gym, at the beach, when traveling with pets or young children. Rolls up for easy storage. Designed for people who care.

FEATURES

- Durable nylon fabric with waterproof urethane coating.
- Double-stitched elastic edge holds Sport Seat Shield securely in place.
- Fits all bucket seats.
- Bench Seats fit pick-ups, vans and sport utilities.
- Not for use on seats with built in airbags or integral seat belts.
- Comfortable in hot or cold weather.
- Easy-to-clean – machine or hand wash in cold water, delicate cycle, hang dry.

Large Bench Seat (Up to 61")		1222	—	1226

Not suitable for use with side impact air bags in seats.

GRANT STORE

Grant offers a line of high quality tee shirts imprinted with the Grant logo and the Grant Racing logo.

Our Heritage Series features imprints of historical cars and ads that were associated with Grant during the 1940s, 1950s and 1960s. Grant was an early sponsor of the 200 Miles Per Hour Club, and a sponsor of race cars at the Indianapolis 500 including the first Ferrari to race at Indy. An early dry lakes race car and a twin engine Toronado drag car complete the Heritage Series.

The shirts are 100% pre-shrunk cotton and available in adult sizes M, L, XL and XXL.

GRANT TIME

5050

5051

What better way to keep track of time than with a new Grant Steering Wheel Clock. These unique clocks are made of the same material we use to manufacture our Styling Rings. Two styles to choose from: Brushed Silver or Flames.

GRANT CAPS

The Grant Caps feature embroidered logos.
